## Sideplates. Front (T) and Centre Mounting for Subracks

Supplied as part of Sub Rack E-PAK  
Aluminium plates, clean metal finish  
with peel-off protective plastic coating.  
Available in 5 heights and 3 depths. Side  
Plates accept Front (T) mountings,  
additional Centre Fixing Holes are

provided. Alternative Rail Mounting  
positions are provided in the 10in  
(25mm) and 14in (355mm) nominal  
depths. Satin anodised finish and sizes  
outside this range available to special  
order.

### Nominal Dimensions

## Single Fixing Nut

Contained in E-PAK A19  
 Used to secure small units such as Wiring Posts and Wiring Combs to Horizontal Rails where full length insert is not required.

Code	Order Code
<b>24-001-001M (M3.5)</b>	00150E

## Double Fixing Nut

Contained in E-PAK A20  
 As Single Fixing Nut.

Code	Order Code
<b>24-011-002M (M3.5)</b>	01628X

## Socket Support Fixing Screw

Contained in Socket Support, Modular Connector Mounting, Unit Form, and A48 E-PAK

This screw is used to mount Socket Supports and Modular Connector Mounting Brackets to Horizontal Rails.

The head is extended to accommodate the rear of Guide Rail M3.5 thread.

Code	Order Code
<b>24-009-001M</b>	01645R

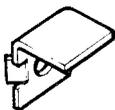

## Guide Rail Locating Screw

Contained in Guide Rail E-PAK  
 Mounts into Horizontal Rail and provides snap fixing for front ends of Moulded Guide Rails. M3.5 thread.

Code	Order Code
<b>24-009-002M (M3.5)</b>	01646G

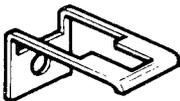

## Guide Rail Locating Bracket

Contained in Unit Form, Connector Mounting and A48 E-PAK  
 This Bracket provides location for all Guide Rails within the Subrack where Socket Supports are not used, i.e. with modular edge connectors. Particularly applicable to Unit Form constructions, this Bracket is also used where combinations of Guide Rails are required.

Code	Order Code
<b>24-006-002</b>	02152B

## Board Retaining Clip

Used in Board Form applications. Fitted to lower front Horizontal Rail and secured by Guide Rail Locating Screw.

Code	Order Code	Contained in E-PAK
<b>24-019-001</b>	02165C	A7

## Locating Pip Style 70 Unit Form

Contained in Guide Rail and A21 E-PAK  
 Plastic double-ended moulding securing lateral Guide Rails within Unit Form or for Board retention on top-entry Boards.

Code	Order Code
<b>70 UF LP</b>	0G417E

*Italics represent obsolescent Codes*

## Guide Rails (Aluminium)

Aluminium Guide Rails, clean finish, of similar section to above are supplied for use in 7in (177mm) and 10in (254mm) deep Sub racks to replace moulded Guide Rails where Unit is likely to be particularly heavy.

Sub-Rack Depth nominal	Code	Order Code	E-PAK
7in (177mm)	<b>SR MGR07</b>	00511R	G7
10in (254mm)	<b>SR MGR10</b>	00510X	G8

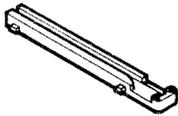

## 2-Rail Guide Inserts. Non locking

Fitted into top and bottom of Socket Support Bracket to accommodate 1/16in (1.6mm) or 3/32in (2.4mm) (nominal) Component Boards.

Code	Order Code	E-PAK
<b>14-018-111</b> for 1/16 in boards	02366G	G12
<b>14-018-101</b> for 3/32 in boards	02316E	G13

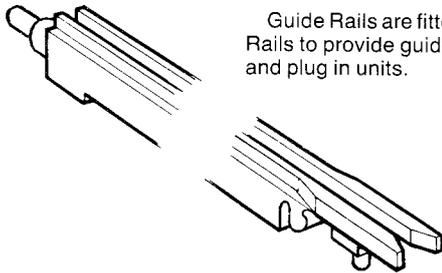

## 2-Rail Guide Inserts. Locking

Similar to Non-locking Insert but with Locking facility for Component Board. In this capacity a Non-locking Insert is used in top position of Socket Support. Twin holes in front of flexible locking portion accept designation buttons.

Code	Order Code	E-PAK
<b>34-018-111</b> 1/16in board (1.6mm) nominal	02372X	G14
<b>34-018-101</b> for 3/32in boards (2.4mm) nominal	02373R	G15

## Guide Rails (Moulded), Series 2

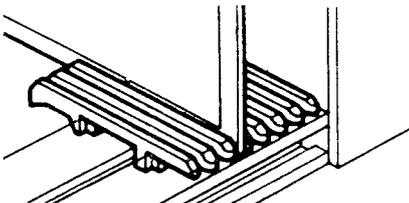

Guide Rails are fitted between Horizontal Rails to provide guidance for circuit boards and plug in units.

Moulded in Noryl and are available in two lengths used singly or in combination.

Sub-Rack Depth	Order Code	E-PAK
7in (177mm)	66428H	G20
10in. (254mm)	66429F	G21

## Block Moulded Guide Rails, Series 2

Block Guides 2in long for 1/16" boards.

## Crinkle Washer

*Contained in Panel and Unit Form E-PAK*  
Fits under head of Captive Retaining Screw on ISEP Style 70 application.

Code	Order Code
<b>70CW</b>	00404D

## Retaining Clip

*Contained in Panel and Unit Form E-PAK*  
Plastic Strip fitted into rear of ISEP Style 70 Front Panel to make captive the retaining Screw.

Code	Order Code
<b>70RST</b>	00482R

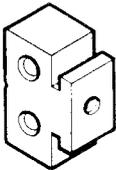

## Retaining Clip Style 70. Panel and Unit Form

*Contained in Panel and Unit Form E-PAK*  
Plastic Retention Clip fits into slot in rear of ISEP Style 70 Front Panels and engages in lower Horizontal Rail.

Code	Order Code
<b>70RC</b>	66350R

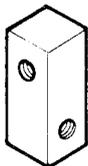

## Clamp Fixing Block Style 70

*Contained in Panel Form and CF1 E-PAK*  
Aluminium section, slotting into rear of Front Panel, enables the fixing of Component Board to Front Panel. Two required per Board.

Code	Order Code
<b>70PF CFB</b>	66495H

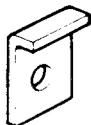

## Fixing Block for Style 19M

*Contained in Panel Form and CF2 E-PAK*  
Aluminium block enables the attachment of Component Board to rear of ISEP Style 19M Front Panel.

Code	Order Code
<b>19MPF CFB</b>	07412B

## Cover Securing Clip Style 70 Unit Form

*Contained in Unit Form Cover E-PAK*  
Clip attached to Unit Rear Plate to secure top and bottom covers.

Code	Order Code
<b>70UF CC</b>	00520G

## Socket Supports

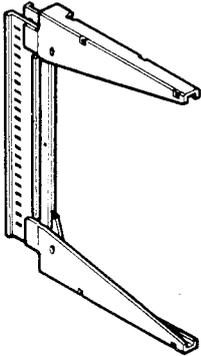

These Units provide mounting facilities for ISEP Female Connectors, terminal blocks and wiring guides, in 5 heights suitable for 2 to 6 unit height Subracks.

For ISEP Style 70 and Style 19M Subracks

Code	Size	Order Code	Contained in E-PAK
<b>22-222-020</b>	2 unit height	02085C	S2
<b>22-222-021</b>	3 unit height	02086A	S3
<b>22-222-022</b>	4 unit height	02087X	S4
<b>22-222-023</b>	5 unit height	02091G	S5
<b>22-222-024</b>	6 unit height	02092E	S6

## Socket Supports for 2-Rail Subracks

These Supports provide mounting facility for ISEP Female Connectors, Terminal Blocks and Wiring Guides. Built-in right-angle Brackets accept the Guide Insert. The heights (HSR) are compatible with 2-Rail Sub Rack sizes.

Code	HSR in (mm)	Order Code	Contained in E-PAK
<b>13-094-008</b>	3.9 (99.06)	02683C	S7
<b>13-094-007</b>	4.7 (119.38)	02681G	S8
<b>13-094-006</b>	5.5 (139.7)	02677X	S9
<b>13-094-005</b>	6.3 (160.02)	02676A	S10
<b>13-094-004</b>	7.1 (180.34)	02672R	S11

## Socket Support Fixing Screw for 2-Rail

Contained in Socket Support E-PAK  
Special Screw for Mounting Socket Supports to Horizontal Rails only.

Code	Order Code
<b>24-009-007</b>	01647E

## Fixing Strip

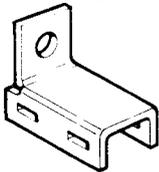

Contained in Socket Support and A39 E-PAK

Inserted through registration holes in Socket Support and Locating Lugs in ISEP Femal Connectors.

Code	Order Code
<b>14-005-001</b>	01621C

## Mounting Bracket
